

A Technology Centre is being established at the new facility to facilitate development of domain knowledge in many of these areas, software products for specific applications and absorption of new technologies. Further, to ensure high level of responsiveness and cater to customers in different time zones, an offshore development centre with STPI certification is being put in place.

The Automation Campus includes a 25,000 sq. ft. Systems Integration Centre that is equipped with Forced Draft Ventilation system to ensure dust free ambience. The building is equipped with modern amenities like access control, building management system comprising zone-controlled air-conditioning, energy-efficient lighting, roof-top garden and recreation area with a state-of-the-art gymnasium.

About L&T

Larsen & Toubro Limited is a USD 5 billion technology, engineering and construction company, with global operations. It is one of the largest and most respected companies in India's private sector.

A strong, customer-focussed approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business over seven decades.
