

L&T Construction Wins Orders (Significant*) for its Power Transmission & Distribution Business

Mumbai, July 25, 2023 The Power Transmission & Distribution Business of Larsen & Toubro has secured new orders in India and abroad

On the domestic front, the Business has won an order to implement SCADA/DMS and related IT infrastructure for urban area power distribution systems in central Gujarat. The scope also involves Information Storage & Retrieval, Front End Processing, Outage Management, Network Management, Dispatcher Training Simulation, Local Data Monitoring etc. with the requisite security systems

Another order has been secured to build a 400kV Double Circuit Transmission Line in Jharkhand. The 133 KM line is associated with the evacuation of power from a generating station

In the Middle East, the Business has received an order for construction of a ± 525 kV High Voltage Direct Current (HVDC) transmission segment. This link is part of a large capacity, Voltage Source Converter (VSC) based HVDC system that connects Neom Industrial City and Yanbu city in western Saudi Arabia

In the Sarawak region of Malaysia, the Business has bagged an order, in a consortium, to establish a 275kV Substation. Once completed, the project will help improve power supply reliability in major load centers on the northwest coast of the island of Borneo

Background:

Larsen & Toubro is a USD 23 billion Indian multinational engaged in EPC Projects, Hi-Tech Manufacturing and Services. It operates in over 50 countries worldwide. A strong customer-focused approach and the constant quest for top class quality have enabled L
